

### List of Fishing Communities & Ports

The following list contains fishing communities and ports that have been identified by NMFS social science staff as having ties to commercial and/or recreational fisheries in the Mid-Atlantic Region. Profiles of most of these communities will be available in late 2008. Communities not yet profiled are identified with an asterisk (\*). Though not mentioned in the regional summary for the Mid-Atlantic, both Pennsylvania and North Carolina have communities that have ties to fisheries in this Region. North Carolina is described in the South Atlantic Regional Summary. Community profiles will be available in late October 2008 at [http://www.nefsc.noaa.gov/read/socialsci/community\\_profiles/](http://www.nefsc.noaa.gov/read/socialsci/community_profiles/).

#### New York
